PROFILE

A highly motivated and skilled Full Stack Web Developer with a strong foundation in the MERN stack and a passion for building robust and efficient web applications.

While comfortable with front-end development using React and Next.js, I excel in back-end API development, database management, and implementing complex server-side logic. Eager to contribute technical expertise to challenging projects and continuously learn new technologies.

A fresher with hands-on project experience practical application of skills.

SKILLS

• MERN Stack

Html, Css, Js, React, Tailwind,

Node.js, Express.js

• Version Control
